threat that things would not always be so. Applause greeted him from the Roberts side of the little room, but dead silence from the majority. When the vote was being called however it was soon seen that Roberts forces were due for a sharp under.

Total—69 votes.

The five votes from Greenlee county were cast for Olney for Chairman, likewise the five votes from Graham county.

Mr. Olney was escorted to the chair by Roberts, of Cochise, Bailey of Yavapai and Hughes of Maricopa. Mr. Olney thanked the committee for the honor and called upon every democrat in Arizona to do his duty in the first presidential campaign in the new state.

The only spirited controversy participated in the meeting followed the election of Olney as permanent chairman. It came upon the introduction of a motion made by Roberts that the State Committee appoint a

sub-committee of three to investigate the election of Hon. Reece M. Ling to be National Committeeman of Arizona, particularly as to the returns from the smelter precinct in the town of Jerome in Yavapai county. Mr. Roberts was of the opinion that the democratic party was resting under a cloud of impurity in politics. Mulford Winsor, Chairman of the State Land Commission, also was acting for an investigation as to how Reece Ling got so many votes in Jerome. In this connection the committeemen present remembered that Senator Roberts and Mulford Winsor did all in their power to defeat Hon. Reece M. Ling as National Committeeman at the time he was a candidate for this position against the notorious Eugene Brady O'Neill. The motion had the appearance of a sad case of sour grapes, a whine sixty days old on the part of a bunch of poor losers. Committeeman Hopkins of Jerome who was present explained to the committeemen the vote in Jerome precinct in the race for National Committeeman and choice for President. He stated that Champ Clark received two more votes in that precinct than Reece Ling; that the primary was regular in every way; he denied in a vigorous manner any fraud or any semblance of fraud. His statement was supported in a vigorous manner by Hon. Neil Bailey from that county and the committeemen evidently thought the statement of two members from Yavapai county should carry more weight than the unsupported charges of "fraud" coming from a citizen of Cochise county five hundred miles away. The Roberts "investigation" motion was tabled by a vote of 40 to 20.

An Executive Committee was then chosen consisting of the following: Apache—Fred T. Colter.

Cochise—J. W. Francis.

Cochise—C. M. Roberts, Harry Jennings, M. F. Bane.

Gila—J. J. Keegan, Chas. Alexander Graham—J. J. Birdno, W. W. Pace, Greenlee—W. B. Kelly, Duncan McNeill.

Mohave—Ed F. Thompson.

Maricopa—Wallace McDonald, S. J. Michelson.

Navajo—Ed Sawyer.

Pima—L. O. Cowan, John T. Hughes.

Pinal—Elmer W. Coker.

Yavapai—Neill E. Bailey; Morris Goldwater.

Yuma—Dennis A. Burke, J. R. Kerr.

Santa Cruz—Frank J. Duffy.

### Democratic State Platform

The Democratic party Council composed of the State Central Committee and candidates for electors present, also Congressman Carl Hayden, a candidate for re-election, met on Tuesday and adopted the following State Democratic platform:

In both state and nation the great democratic party rejoices in a record of achievement in progressive legislation and administration. The democratic fight for many years against special privilege in all its varied forms has at last brought national victory within its grasp. Under able leadership is has fought insistent corporate power until an awakened people is determined that "the people shall rule"—rule through the democratic party, which has fought the people's fights, won their victories and earned their confidence and support.

We declare our unqualified and enthusiastic indorsement of the national democratic platform and its standard bearers, Woodrow Wilson and Thos. R. Marshall, heartily subscribe to their high ideals of American patriotism and statesmanship, and pledge the democratic party of Arizona, reflecting the views, and jealous of the rights, of the masses, to measure up to that exalted standard. The democratic party has grown strong in the hearts of the people in corresponding ratio as "bossism" has been denounced and the influence in the party's councils of predatory wealth has been discountenanced.

By virtue of statehood, Arizona's progressive democracy, as exemplified in the Constitution of the state and the faithful interpretation of its principles into law, has assumed a leading place in the ranks of progressive states. Pointing to this achievement, as a notable instance of progressive democratic triumph, we renew our pledge of allegiance to the spirit and the letter of the Constitution, and confidently assert that the assurance of popular government provided thereby will finally result in driving from public positions and party prominence the time-serving special interest politicians, who have long been at once the bulwark and the bane of practical politics.

Regretful that insufficient interest has thus far been taken by the voters in the direct primary, we nevertheless reaffirm our belief in the great principle involved, and pledge ourselves to labor for the awakening which can only result in the complete vindication of the principle. As "eternal vigilance is the price of liberty," we call upon all genuine democrats to actively participate in the primaries, to the end that party government under the law shall be truly expressed.

live of progressive democratic sentiment. Upon the purity of the ballot rests the confidence of the people in government, and we heartily and with pride approve the courage and honesty of the democratic governor and the democratic Legislature, through which were enacted advanced laws aimed to effect this end.

In the vast constructive works required by the change from a standpoint territorial to a progressive state government, the democratic administration has met every requirement, ably and fearlessly, carrying out every platform pledge, fulfilling every election promise, and meeting every need of proper organization and administration of the affairs of government. It has been mindful of the proper adjustment of affairs between producer and consumer, the relations between public service corporations and the public, of the respective rights of labor and capital and of the general development of all lines of legitimate industry in which the state is rich beyond compare.

We congratulate the democratic Legislature upon its unexampled record of remedial legislation, directed toward the proper protection of those who labor and are heavy laden, a record of achievement which describes, more eloquently than any words, the attitude of the democratic party in Arizona toward labor.

The democratic majority of the Legislature has wisely submitted four amendments for adoption. First, foremost and most vital in principle and effect, is the provision for the recall of the judiciary, of which a republican President insolently compelled the elimination from Arizona's Progressive Constitution, as a condition precedent to statehood. No longer under this tyrannous power, we pledge the party to support the amendment adopted by a democratic Legislature in fulfillment of the pledge to the people, replacing this provision in the Constitution in its original form, and warning the people of the activities of corporate interests in the effort to defeat this measure of popular government, call upon all patriotic citizens of Arizona to rally to the vindication of the state's courage, patriotism and

independence.

That taxation may be equalized properly; that the rich and powerful may not longer avoid the payment of their just proportion of the expense of the government of the state, we favor the adoption of amendments to the Constitution giving wider latitude to the powers of the State Tax Commission.

We congratulate the people of Arizona upon the privilege given them by our Democratic State Constitution of a full and free vote upon the question of Equal Suffrage at the next election, and while we favor equal suffrage, we recognize that the question cannot be made a test of party fealty.

We endorse the splendid service to the state and nation, of United States Senators Mark Smith and Henry F. Ashurst and Representative in Congress Carl Hayden, and we particularly commend to the voters of this state the Hon. Carl Hayden for re-election to Congress; and especially endorse the action taken by our United States Senators to prevent the confirmation of Richard E. Sloan as Federal Judge of Arizona.

We are in favor of amendments to the National Reclamation Act which will provide for an extension of time for the repayment of the cost of reclamation projects. The settlers should not be required to bear the expense of mistakes made by government officials, and we favor a thorough investigation of the expenditures under any project before the cost of the same is finally determined. In keeping with the democratic doctrine of local self government, we demand that the management and operation of each reclamation project be turned over to the water users under it at the earliest possible moment, and during the period of construction, and water users should be consulted and their approval obtained before any contracts are made for the sale of power or before any change is made in the method of distributing water. Each reclamation homestead entryman should be permitted to receive a patent for the full area of his entry. We pledge our Senators and Congressmen to use all honorable means to secure the passage of these necessary changes in the reclamation law.

## Just a Little Longer, Please.

We hoped to get our new store in the Greenlee Block (the only three-story building on Chase Creek) finished between the 5th and 10th of October, but through shortage of workmen, it will be impossible for us to move before the 15th of October. At our old store, however, our New Fall Goods are arriving daily, and your selection will be as great as if you wait until we move. All our Fall stocks of the various lines of merchandise we handle are nearly complete, and we invite your inspection. Come up to look, even if you do not want anything just now. Depend upon it, you will remember well the values that we offer, after once seeing them.

Remember particularly that we will not have sufficient room at the new store for Carpets and Rugs, Trunks, Chinaware and Glassware and we are closing these lines out entirely at greatly reduced prices.
